

Delphi at IBA

This year, 8-13 October, we will attend the Annual Conference of The International Bar Association, IBA, in Sydney, Australia. IBA is the world's leading organization of lawyers with more than 80,000 members from all over the world influencing the development of national and international law, both in terms of business law and human law.

We have been active in IBA's various committees for many years, thus creating a network of many renowned lawyers throughout the world. The first time Delphi attended an IBA Annual Conference was in 1992 and we have participated annually ever since.

Delphi's partner and founder Per Berglöf have been to all IBA conferences since -92 and was 2010-2011 Co-Chairman of the IBA Corporate and M&A Law Committee, which is one of the largest committee within IBA.

The Committee is a leading forum in the world of education, knowledge sharing and networking between lawyers worldwide in corporate law, corporate governance, private equity and M&A.

Per will, of course, attend this year's conference as well. He says:

"I very much look forward to the IBA Annual Meeting in Sydney in October. Once again I get the opportunity to meet lawyers I've come to know over the years and to introduce younger colleagues into the various committees of IBA."

Find our IBA Team and their contact information below. We are looking forward to seeing you in Sydney!
