

# Invitation: Nordic Employment Law Seminar 2018

Once again some of the leading individuals within Scandinavian employment law are hosting the successful Nordic Employment Law Seminar for HR professionals responsible for the Nordic Region.

For HR professionals working multi jurisdictional, it is essential to have up-to-date knowledge and awareness of the differences that exist in your region of responsibility. Essentially, rules and legislation are far from uniform in Scandinavia.

Two intensive days of teaching in selected topics within Scandinavian employment law will enable you to compare and distinguish between the differences in some of the most practical day-to-day employment law topics, equipping you with the skills to identify the rules applicable for the daily challenges. A full seminar agenda will be disclosed shortly.
